

Hi Tom

Amaze Photography offered us a very personal service which we highly recommend. The quality of the work as well as the service that was provided throughout our special day was absolutely professional and at the same time delivered exactly what we asked. We were consulted on what we wanted out of the photographs and the things we considered to be important to us. We were given the opportunity to convey what style of photography we preferred and the service was delivered to capture those needs.

Tom was not only talented in the way he captured special moments but also offered his time and attention to the little things we wanted and needed covered by the photographs.

He took his time and personalised the photographs in such a fashion that it communicated to us the things that we wished to remember.

In total we had ordered 200 photos and so many of them turned out beautiful that it was hard to choose the best ones ..... they are all special!

Thank you Amaze Photography for adding beauty to our special day.

Wajma
